Welcome to the beautiful world of **Metro**

The tiles company that wrote a new chapter of success and progress through path breaking creativity and innovative thinking. Always the believer of paving a new way, Metro has always been a trendsetter rather than the follower. The group has given its customers unique tiling concepts that delight their hearts and beautify their spaces. With a humble beginning more than two decades ago, Metro Group has come a long way thanks to its strong foundation laid by Mr. R.L. Patel and strengthened by next generation visionaries Mr. Shekhar Patel & Dilip Patel. The saga of commitment, passion and dedication continues with third generation filled with zeal and new vibrancy. Today the group stands as a successful metaphor for Tradition meets the Technology. Metro Family started its journey more than two decades ago. After conquering many milestones of success, the group is still hungry to explore new avenues of excellence. This craving, this yearning for exploration of better ideas is the secret behind the constant evolution of the group. Day by day...the group is inching a little more towards more success through intelligent use of technologies and bringing bright ideas in practice. Always thinking with fresh approach, the group is a glorious story of how passion and commitment takes you towards your dream..

800x800mm Digital Vitrified Tiles

Luxury & Grandeur couldn't be mistaken from far away, as Marmoreal Collections are here to set new trends. Surely, not only is it a replacement for Marble tiles, but with fusion of technology & creativity, it shall be the mainstay of interior & exterior decor. Surface colors and designs have been sourced from the most exquisite marble quarries throughout Italy and Southern Europe and as they are applied on such tiles, the resultant product possesses uniqueness unlike any.

LAYING INSTRUCTION

TILES FIXING INSTRUCTIONS

- All the Tiles must be checked prior to fixing for quality, batch no. and choice.
- Plaster the surface of the floor to be tiled and allow curing atleast two weeks before tiling.
- While fixing pick tiles from various boxes alternatively, lay them in the desired patterns and make sure that they give an acceptable blend of colour and design. Please note that shade variation is inherent in manufacturing tiles.
- For fixing tiles we recommend to use the fixing adhesives or equivalent product for the best result.
- For fixing tiles in floor using conventional method, we suggest the following laying instruction:
A: use cement and sand mortar in the ratio 1:4. Add water to create a consistent paste.
B: Apply 20-25MM of bedding materials over the floor area of 1.0SQM at a time.
C: Apply a thin coat of the slurry on the back of the tile to ensure proper and full bedding. Press gently for even adherence of the tiles with surface.
Do not use any heavy materials like iron or hammer to press tile.
- For fixing the tools on Dado, we recommend the use of adhesive or equivalent materials.
- Allow 3-4 days of bed curing after laying tiles and later fill the joints with grout.
- We recommend maintaining a joint gap of 1-2mm between the tiles to allow possible thermal expansion at later stage.
- Please note that company will not accept any liability in case of any problems arising out of adherence of above fixing instructions.

DISCLAIMER : Metro reserves the right to delete and amend either totally or partially, any of the colours, shapes, sizes, references and other technical specifications contained in the catalogue at any time. The colours shown in this catalogue are purely illustrative and limited to printing process. Please refer actual samples before final selection. The details of colours, sizes and references should be verified for photography errors. SHADE & SIZE VARIATIONS are inherent characteristics of ceramics. NO COMPLAINMENTS SHALL BE ENTERTAINED ON TILES ALREADY/FIXED.

Helpful tips for better aesthetics look (Laying Instructions)

- For better aesthetic value and for guarantee use it is strongly recommended to provide 3 mm spacer in between the tiles. Without spacer, harmony of tiles might be disturbed.
- Make sure that the design, pattern and the arrow marked on the back side of tiles must be in the same direction.
- Any product from digitile must be installed (laid) in the same format. i.e. 800x800mm size. For the particular series customized size application is not possible.

* THE COMPANY SHALL NOT BEAR ANY LIABILITY FOR THE PROBLEMS OUT OF NON-FULFILLMENT OF LAYING THE INSTRUCTIONS AS ABOVE.

NOTES :

- * All technical specifications in this catalogue are for premium grade materials only.
- * SHADE/SIZE VARIATION are inherent characteristics to ceramics. Certain products purposely have variations that are the parts of designs and the process. The same have been indicated.
- * It is recommended to blend tiles by mixing tiles from various boxes and check for natural hue before fixing.
- * Company's liability is also limited to the material supplied by the company; no other claim is entertained under any circumstances.
- * No complaints shall be entertained regarding the decoration on tiles, unless created by METRO.
